PHILOSOPHY OF THE PROGRAM:

This program is designed to enable young people the opportunity to play basketball in a recreational environment. This is the utmost importance to remember while gathering the teams, in practice and in games. It has been proven, repeatedly, that a child may not begin play as an adept player, but may become one of the best.

This philosophy does require that a coach take the time and effort to train the child in skills and rules. Winning is important, but not the point and certainly not everything at this age. With this in mind, the program strongly suggests that coaches play all players an equal amount of time. This is a recreational program intended for all team members, both for their enjoyment and education in the game of basketball. **REMEMBER** … the program is for the kids, so let them play and enjoy the game.
